Erasmus+

Turkey

ISTANBUL

The second training course, Social-Emotional Learning Strategies for Teachers, was organized by Araxa Edu, in Istanbul, between May 13th-17th, 2024. In this course, the participating teachers discussed about the social and emotional learning, a process through which children acquire, then effectively apply the knowledge, attitudes and skills necessary to understand and manage emotions, to feel and show empathy for others, to establish and maintain positive relationships, to make decisions responsibly.

The Erasmus+ project implementation team within the college believes that the continuous professional development of teachers is the way in which the quality of the education provided is kept up to the standards imposed by society, and at the same time, a way in which the teacher develops his/her knowledge, skills and competences.
